## Energy Savings

- pureWash® consumes just 25 watts of electricity (less than the average light bulb).
- Only uses electricity when your washing machine calls for water.
- PureWash turns on and off automatically.
- No need to heat water.
- Clothes dry faster with out soap residue.
- The average family of four can save over \$600 a year on laundry expenses.  
(based on statistics from the Department of Energy & Multi-housing Laundry Association)
